"I prefer liberty with danger to peace with slavery" - J.J. Rousseau

FELLOW PATRIOTS, IT'S ABOUT *FREEDOM*....

What's Going On Here??

Direct from today's headlines comes the story of average, peaceful Americans whose faith in God and the Constitution's Bill of Rights are being attacked by a regime that is controlled by a cabal of globalist elites, whose allegiance is not to the people, but to themselves... The government that we instituted to safeguard our God-given rights is now being used to enslave us all in a global tyranny.

This is the story of Americans who saw the depredations of Ruby Ridge & Waco, and many other places across the nation... It is the story of patriots who understand what is happening and are not willing to let freedom slip away unchallenged.... It is the story of parasitic elected officials who tell the American people that it is *"...time for Americans to get used to a lessening of our freedoms..."* [Kay Bailey Hutchinson, R-TX]

In Her Own Words!

"Our task of creating a socialist America can only succeed when those who would resist us have been totally disarmed." (Italics added) Sarah Brady, Chairman, Handgun Control Inc. ...from remarks she made to liberal U.S. Senator Howard Metzenbaum as she lobbied in support of a ban on semi-automatic firearms.

Don't believe for a minute that this nation's politicians and media want "reasonable gun control". Their goal is to totally disarm us, take

away our few remaining freedoms and make us slaves to their bureaucracy. Sarah Brady's statement is proof of three outstanding truths, about which patriots have been educating their neighbors:

Traitorous politicians are conspiring to enslave YOU!

⊕ 1) It IS a conspiracy against us. These actions are conducted in secret, without the knowledge or consent of the people, by socialist-minded traitors in high government offices. It is their plan to change our constitutional government into something alien to us.

USE IT OR LOSE IT!

⊕ 2) They wish to make us into a SOCIALIST AMERICA. Socialism is the same thing as communism, and it means tyranny. We are already living under a tyranny, and it is growing bigger and more oppressive with every passing week.

⊕ 3) Gun control is a necessary step towards oppression, enslavement, and genocide, as proven by a JPFO study into the causes of genocides. The study conducted by *Jews for the Preservation of Firearms Ownership* also determined that US gun laws are based on Nazi gun laws!

GUN CONTROL IS.....
HITTING YOUR TARGET.

New World Order

The facts at hand clearly demonstrate that the "New World Order" is here now, and the only thing that will keep us from total subjugation are the guns we own. Why else would law-abiding citizens and the associations they form, including lawful militias, be vilified so terribly in the establishment media??

Just what exactly is this "New World Order"?

It is a term used by President George Bush during the Gulf War "conflict" in 1992. In his presentation to the United Nations, Bush spoke of this "New World Order" not less than 48 times! He went on to say, "...Out of these troubled times...a New World Order can emerge."

New World Order, or NWO, is a term for the global government that is being established today. It is presently being administered by the United Nations, but it would not be difficult to transfer, or even transform, this global governance into a more powerful body. To this end, Bush said, "My vision for a New World Order is an empowered United Nations..."

Let us instead consider the warning of patriots within government service, such as Congressman John E. Rankin: "The United Nations is the greatest fraud in all History. Its purpose is to destroy the United States!"

Note that this tyranny is bipartisan. If you read the legislative records and the executive orders, you will see that Republicans & Democrats are both responsible. Read on...

Third Reich Odor

Before going any further, let's take a hard look at the differences at the UN Charter and the US Constitution & Bill of Rights. Our document recognizes the natural rights that all people are born with are not subject to governmental infringement; the UN charter seeks to create "privileges" which are "as provided for by law", enabling these "rights" to be revoked!

Upon close examination, it is apparent that the USA and the UN are incompatible as long we have a Constitution and Bill of Rights. It is this reason that a plague of lawyers has torn down the hedge of protection that allows us to practice our rights.

Currently there are enough laws on the books that, if a person were to read them all, it would take their entire life just to scan over them all; gun control laws alone consist of over 20,000 statutes in the USA!

Consider all of the things that have been done to curtail your liberties, which bear resemblance to Nazi Germany:

⊕ Licensure. Most everything today requires a license of some sort from the appropriate government agency. The legal definition of license is "permission by the state to do something that would otherwise be illegal". Consider driving a car: Whether on a public road or even on private property the state expects "papers" for both the driver and the vehicle. If you wish to start your own business, build or remodel a house, get married or hold a job, you have to have the state's permission!

⊕ Travel. In Germany or Russia, all travelers were expected to "have their papers in order" at checkpoints and crossings. In the USA, we don't *yet* have internal borders but we do have barricades that are randomly erected by police to

conduct illegal searches. They are euphemistically called "safety checks" & "sobriety checkpoints".

⊕ National Police. Although we do not have a single agency that can be called "National Police" yet, we do have a national police force in the guise of the hundreds of federal agencies that have overlapping jurisdiction and often try to extend their powers far beyond their original mandates.

⊕ Gun Registration. Another example where licensing is taking a bite into our liberties - Nazi Germany used gun registration lists to identify and round up all weapons. Once the population was "disarmed", they began killing the "undesirables" in the population.

⊕ Illegal Gatherings. In the USA, we are supposed to have the right to peaceably assemble. Now, certain "politically incorrect" groups and associations are told that they ought not meet, and legislation has been attempted in several states to enforce this.

If the stench of Tyranny is unpleasant in your nostrils, if you can see that this "new world order" has a distinct Third Reich odor, if you desire to truly live free, then the most important thing you can do is free your mind and get educated Abe Lincoln style. Learn for yourself! Read & be informed.

THREAT TO TYRANTS!*

America, Amerika

Changes in our society are taking us away from the constitutional Republic we once had. These changes have been by design, systematic, and very successful.

Globalist personalities already speak of an “end-game scenario” which will soon be in place.

Already, the patriot movement in all 50 States has recorded and preserved evidence of foreign troops and their equipment moving inside our nation. A careful study of globalist motives proves that they want to destroy America. As most people know that millions of Americans are heavily armed with a wide variety of personal arms, it becomes clear that the only way that they can attempt to disarm Us is if they were to bring the armies of the world against us... And that’s *exactly* what they are doing!

You will see for yourself that the enforcement arm that is being implemented is just one tentacle on a massive leviathan, something that has gone chillingly wrong with this country.

A Partial list of Tyranny

You will see that there’s much that has become twisted and *wrong* in our once great Republic.

1. Civil Asset Forfeiture. Your property is the criminal, with no rights, and you have the burden to prove its innocence. (‘legal’ theft!)
2. Fraudulent Income Tax system (based on a nonexistent amendment to our US Constitution, and in violation of the ‘apportionment’ clause of the same Constitution!) This also ties in to our other money problem...
3. Federal Reserve Bank System. In 1913, our elected officials sold our country over to the

INDIANA MILITIA CORPS

international banking cartels in violation of the Constitutional mandate that “only Congress shall have the power to coin money and regulate the value thereof...” The Federal Reserve System is private, not government controlled, thus placing the power of our economy in the hands of a private organization. This is the “Scylla” to the Income Tax “Charybdis” that has put the USA between a “rock and a hard place” economically.

4. Government “license to kill” in the guise of Sovereign Immunity laws.
5. Freedom of speech, assembly under siege. According to Accuracy In Media, 89% of all network news comes from some type of government agency or bureaucrat. Try to have a “patriot” meeting or other public grassroots assembly and federal agents will actively seek to infiltrate and undermine the assembly, including Churches that are not government-approved. (Forget the Alamo; remember what happened in Waco!)
6. Gun control. In 1776, colonists possessed the most modern military hardware of their day, muskets and even CANNON! Today, you are allowed to possess only what the government allows you to have. You *can’t* have cannon, machine guns, recoilless rifles, grenades, high explosives, tanks, antiaircraft batteries, napalm, etc., etc, even though a “well-regulated” militia by definition should also be well-armed.
7. National identification system. In the days of Hitler, everyone had to have “papers” that were issued by the government that prove a person’s identity. We now have this system with Social Security numbers, state drivers license/ID cards, biometric ID systems, and implantable microchip ID’s. Hillary Clinton wanted to close the national ID gap with her “national health insurance card”, which would have also conveniently slam-dunked 1/7th of our economy into socialist regulation under the government. Unfortunately, a 1996 law already mandates the creation of a national ID system; failure to carry this card or present it on demand carries an automatic 2-year prison term (see #15, below).
8. Government by Regulatory Agencies / Bureaucrats. In the USA, we are supposed to have a representative form of government. Instead, our Congress has established itself as a new ruling class of elites, and it no longer writes the laws, but drafts a framework for the regulatory agencies who now decide what is “law”. This same group of traitors ignores laws that supercede or nullify their dirty deeds, especially the Constitution itself!
9. Conspiring to Rewrite History. The 13th Amendment was originally the “Titles of Nobility” amendment, which prohibited all citizens from holding any foreign title or office, upon pain of expatriation and revocation of their status as a citizen. This was meant to protect the nation from the growing cadre of lawyers whose “bar associations” conferred the foreign title of “esquire” to its members. The Amendment was “erased” on the eve of the Civil War, and known copies of all books containing this newly ratified amendment were burned! Fortunately, a few precious copies survived and now the truth is known!

Ironically, it is the converse of the 16th Amendment. One was ratified but buried; the other was not ratified but stands as if it were. George Orwell's book *1984* stands as a testament to the ease of governmental rewriting of history.

10. Duties of Jurists, Nullification. The lawyer-dominated court system has sought to keep all educated jurists out of the jury box, because one of our most important rights is a trial by jury. Jury members have a responsibility to not merely try the facts of the case, as the court will tell you, but also have a responsibility to judge the law. If a law is unconstitutional, or "bad", the jury has the right to NULLIFY. For more information, contact the Fully Informed Jury Association at 1-800-TEL-JURY.
11. The Secret Constitution, NSA. There was a secret constitution created over 20 years ago in preparation for the takeover of America. It is called "The Constitution of the Newstates of America" and resembles in its construction the UN charter. (See "Third Reich Odor", page 2, column 2.) The "secret constitution" was created at about the same time that President Nixon created Executive Order 11649, which divided the country into ten federal regions. The same map depicting these regions was used in the movie *Amerika*, to describe how the USA was going to be divided into smaller countries. What a coincidence!
12. "Big Brother" Camera System. Across these united States, there are cameras popping up at every intersection, sensors in the roadway on all highways, interstates, and some county & city streets. These devices are touted as high-tech "traffic

control" tools for the smart highways of the future. Truth is, it has more to do about people control, just as these cameras are being used overseas in foreign countries. The road-monitoring program is called "C-WARUM", or certified wide area road use monitoring. It was developed overseas and is being implemented in the USA with Russian consultants.

13. National Police Force. The global elites have even more changes for us, including an army of police for "internal security" and the abolition of our own military in the face of an empowered and enlarged United Nations peacekeeping force operating in the continental USA. (See State Dept. publication 7277) Of course, people won't go with this, because they realize that when this happens they can kiss the last of their freedom goodbye. Since the NWO crowd knows this, they have been preparing to take steps to counteract this last gasp of independence....
14. Foreign Troops on US Soil. While you have been sleeping, foreign troops have been pre-positioned in select parts of the country. They typically infiltrate into society with the use of "papers" generated by our government, so that they can live inside our (open) borders until they are mobilized to do their job. This is necessary because most US soldiers just won't accept orders to slaughter their fellow citizens. Getting foreigners to do the dirty work is easier, because it solves two basic problems: It avoids the messy affair of Americans killing Americans, and it allows these same foreigners to "get even" with the USA. After all, we

INDIANA MILITIA CORPS

have made a lot of enemies sending our troops "over there", and turnabout is fair play in foreign affairs.

15. Concentration Camps in USA! Once these troops move out to put the last nail in Liberty's coffin, they intend to round up unorganized resisters and "political opponents" into detention camps that have quietly been built since the 1980's. Some of these are prisons built near the original sites of WWII internment camps that were built to house hundreds of thousands of Japanese, German, and Italian American citizens. But you probably didn't know that this system of concentration camps was originally conceived *before* WWII by our first communist president, Franklin D. Roosevelt.

All of these facts above are merely symptoms of the "New World Order". There are other issues too numerous to detail here, but it all spells an end to freedom as Americans have known it for over 200 years.

New technologies are making it possible to enslave millions, on a scale never before known to human misery. These technologies can make the enslavement of a population so complete that Hitler would be proud. This is why patriots and freedom-lovers in the USA are vilified so badly by the establishment; should the people wake up now and listen to what patriots are saying the globalists will lose their iron grip on America.

If You Truly Love Liberty

It is possible that the facts at hand are just one big giant coincidence. It is possible that all of this could be some “wacked-out conspiracy theory”, as the media would probably say. If this is true, then it is also possible that a watch factory could explode and all the pieces could fall in just the right way as to make a complete and functioning wristwatch. And if you can believe that, there’s some wonderful beachfront property waiting for you in Nevada.

The ugly truth is this: our nation has forsaken its obligation to the one God who gave us our rights and made this nation possible. “...He bringeth low, and lifteth up...” 1 Samuel 2:7. Just as He can establish a nation, He can also bring it down - which He has been known to do when a nation is unrighteous.

Our present dilemma is threefold: we are in a political decline, an economic decline (in spite of what the establishment media tells you), and most important, a spiritual decline. To overcome this situation requires massed individual efforts against the powers of darkness in high places. “For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places.” (Ephesians 6:12)

Whatever faith you may ascribe to, if you seek God in faith He will reward you with an understanding of THE TRUTH.

So, what’s the answer?

Unfortunately, there are no *easy* answers. Faith in God and an understanding of prophecy certainly helps. Having an understanding of world history, and especially an understanding of American history,

INDIANA MILITIA CORPS

is essential. Those who fail to learn the lessons of history are doomed to repeat it, and we as a nation are about to learn the hard way that freedom is easily lost, but hard to regain. This is not intended to discourage the reader, but prepare you to take the necessary steps on the road to liberation.

This informational packet was created to illustrate that liberty as we know it is soon to be a thing of the past. The Indiana Militia Corps was created to deter, discourage, and ultimately, to resist those who would destroy our constitutional Republic.

There are others who share this concern over the fate of our nation’s heritage of Liberty, and we encourage you to be involved with them as well, such as the Continental Congress.

These issues are too complex to address completely in one publication. We have the information available for you to *educate yourself* (another thing the global grabbers hate); and even the resources to build your own patriot library. Books, pamphlets, videotape, and more - all serve to create an *informed citizen*, which is a natural enemy of tyrants.

The Palladium of Liberty:

Private Gun Ownership

you own a firearm and are a citizen of Indiana, you are a member of the militia here (Article 12, Sec. 1). As such, you have a responsibility to know what the militia-at-large is, and what the militia-at-large does.

Article 1, Sections 31 & 32 apply to the militia with regard to those activities which the militia is expected and obliged to conduct:

“No law shall restrain any of the inhabitants of the State from assembling together in a peaceable manner, to consult for their common good;” and “The people shall have a right to bear arms, for the defense of themselves and the State.

It should be the goal of every responsible citizen to know the Constitution and what it means. Anything less, among society at large and over a period of time inevitably results in the threat to the Republic we see today.

‘Well-regulated militia’ means more than just well-disciplined, it also means well-educated!
