## **- INDIANA MILITIA CORPS - VON BRUNN NOT AN AMERICAN PATRIOT**

The Indiana Militia Corps finds that Von Brunn's actions at the Holocaust Museum were appalling and do not support or condone these actions.

We, as a group, oppose such racist actions, and consider this to be a pristine example of unconstitutional behavior. The founding fathers also believed that everyone has a right to their own religious beliefs and that one religion is above no other in the eyes of government.

Anyone that claims to be a patriot and then tries to destroy the property, the lives, and livelihoods of those individuals they prejudice against cannot be a true American Patriot. The Indiana Militia Corps frowns on the despicable behavior of this man, and hopes that justice is served for his crimes.

We are freedom for humanity. We are here to protect and defend the God given rights of all people, regardless of political, religious, race, or personal beliefs, against all enemies, foreign and domestic. We wish to offer our greatest condolences to the families he has effected with this thoughtless act.
